UTILITY REFRIGERATOR

Discover the Difference

**“The Bitterness of Poor Quality Remains
Long After the Sweetness of
Low Price is Forgotten.”**

Unknown

PEOPLE

One reason Utility Refrigerator products are so reliable is because our people actually “own” them before you do. From our assembly line to your kitchen, Utility’s people take ownership of each and every part they are responsible for. Excellence is both expected and appreciated. That’s what we mean when we say, “Nobody does it better than Utility Refrigerator”.

BUILT RIGHT by PEOPLE WHO CARE

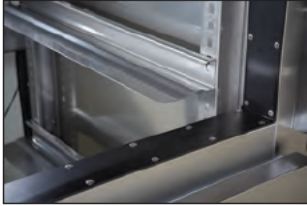

PRODUCT

We focus on solutions... solutions that provide better value and savings. Since its founding, Utility has strived to meet the needs of the end user. Whether it's a modification of one of our standard models or a "build-from-scratch" design, each and every unit is built to the same high standard. Attention to detail is standard operating procedure. With Utility you can be certain your investment will pay dividends for years to come, because at the end of the day there is no substitute for reliability.

PERFORMANCE

What you pay for a piece of equipment is not what it costs you. Each and every Utility model is designed to serve you long after its installation. Utility products offer the most standard features of any refrigerator products available today. "Extras" that don't cost you extra... many not even available as options from other manufacturers. Integrated sight glass and removable filter drier... thermal expansion valve refrigeration system and receiver and service valves that enable the system to adjust to varying loads and allow system pump down during service... minimum 2 1/2" high density insulation throughout and low pressure burnout protection are just a few of the features that make Utility products the most dependable refrigeration equipment in the industry.

SUPERIOR DESIGN...EXCEPTIONAL VALUE

PRIDE

At Utility, pride manifests itself in many ways. There's the pride we take in the unique service we offer and the dedication and professionalism of our people. There's the pride we take in listening to your needs and then directing our efforts to satisfy those needs. Then, there is the pride we take in our ability to offer innovative products, few, if any, of our competitors offer... products like our pass-thru undercounter units, double depth roll-in/roll-thru models and wine refrigerators, to name a few. Lastly there is the pride and confidence we have in our equipment. Utility is the only refrigeration manufacturer to offer a standard 5 year parts/5 year compressor warranty on all of our units. To sum it up, with Utility you get more for your money and we take immense pride in that fact.
